**Re: 2025 Recycled Content Averages for Nucor Downstream Steel Products**

Nucor Corporation is North America’s largest recycler, using approximately 22.5 million net tons of scrap steel in 2025 to create new products. Nucor uses Electric Arc Furnace (EAF) technology at all its steel recycling facilities. EAFs use post-consumer scrap steel material as the major feedstock, unlike blast furnace operations that use mined iron ore as the major feedstock. Nucor has prepared the following information to help calculate the recycled content for products being used in “Green Building” applications or for projects in the LEED® certification program and to provide recycled content averages for customer use. These percentages are based on the total weight of products produced by the respective entity. The values reflect estimates of the product’s pre- and post-consumer scrap content as a percentage of total relevant inputs to the manufacturing process in accordance with ISO 14021:2016. The recycled content presented reflects the recycled content of steel products manufactured from Nucor steel.

**Recycled Content – Averages for Nucor Products**

| <b>2025 Recycled Steel Content of Nucor Products (% by Total Weight)</b> |                                 |
|--|---------------------------------|
| <b>Product Group</b>   | <b>Average Recycled Content</b> |
| Nucor Bar Products   | 98.5%                           |
| Nucor Engineered Bar Products  | 95.9%                           |
| Nucor Beam Products  | 81.8%                           |
| Nucor Plate Products   | 83.3%                           |
| Nucor Sheet Products   | 62.4%                           |
| Total Nucor Steel Combined   | 79.1%                           |

## Nucor Downstream Products Group

| 2025 Recycled Steel Content of Nucor Steel Products |                        |                                      |                                     |
|---|------------------------|--------------------------------------|-------------------------------------|
|   | Total Scrap Steel Used | Total Post-Consumer Recycled Content | Total Pre-Consumer Recycled Content |
| Vulcraft Structural Products                        | 98.5%                  | 93.0%                                | 5.5%                                |
| Vulcraft / Verco Decking                            | 62.4%                  | 26.9%                                | 35.5%                               |
| Nucor Grating                                       | 98.5%                  | 93.0%                                | 5.5%                                |
| Nucor Building Group                                | 79.1%                  | 51.5%                                | 27.6%                               |
| Rebar Fabrication                                   | 98.5%                  | 93.0%                                | 5.5%                                |
| Nucor Tubular Products - Sheet                      | 62.4%                  | 26.9%                                | 35.5%                               |
| Nucor Tubular Products - Plate                      | 83.3%                  | 53.5%                                | 29.8%                               |
| Nucor Fastener Products                             | 98.5%                  | 93.0%                                | 5.5%                                |
| Nucor Wire Products                                 | 98.5%                  | 93.0%                                | 5.5%                                |
| Nucor Insulated Panel Group Products                | 63.3%                  | 24.6%                                | 38.7%                               |
| Nucor Cold Finish - Bar                             | 98.5%                  | 93.0%                                | 5.5%                                |
| Nucor Cold Finish - SBQ                             | 95.9%                  | 52.3%                                | 43.6%                               |
| Skyline Steel Group                                 | 74.3%                  | 33.0%                                | 41.3%                               |
| Nucor Warehouse Systems                             | 72.7%                  | 42.9%                                | 29.8%                               |

### **Vulcraft Group locations:**

Vulcraft – Florence, SC; Norfolk, NE; Brigham City, UT; Grapeland, TX; St. Joe, IN; Fort Payne, AL; Chemung, NY; Nisku, AB; Ancaster, ON; Verco Decking – Phoenix, AZ; Fontana, CA; Antioch, CA.

The bar steel for Vulcraft joists and structural products is typically obtained from one of the eleven (11) Nucor bar mills. Steel for decking produced by Vulcraft facilities is typically obtained from one of the five (5) Nucor sheet mills. Verco Decking, Inc. may obtain steel from sources outside of Nucor that may contain lower amounts of recycled content. Specific product information regarding Verco Decking, Inc. and individual Vulcraft locations is available from facility representatives.

**NUCOR CORPORATION**

1915 Rexford Road  
Charlotte, NC 28211  
704.366.7000

---

**Nucor Building Group locations:**

Nucor Building Systems - Swansea, SC; Waterloo, IN; Terrell, TX; Brigham City, UT; American Buildings Company – Eufaula, AL; La Crosse, VA; El Paso, IL; Kirby Building Systems – Portland, TN; CBC Steel – Lathrop, CA.

Nucor Building Group products may contain steel from all the Nucor steel mills or obtain steel from outside of Nucor Corporation for their sheet, plate, bar, and beam steel needs. Various components contain varying amounts of recycled content. Contact the Building Group facility directly for additional information.

**Nucor Grating locations:**

Nucor Grating Brigham City, UT; Grapeland TX; Wetaskiwin, AB; Burlington, ON; Pointe-aux-Trembles, QC.

Steel for grating products is typically obtained from Nucor bar mills. Contact Nucor Grating directly for job specific information and recycled content data for galvanized, stainless steel or aluminum products.

**Nucor Tubular Products locations:**

HSS Divisions –Marseilles, IL; Birmingham, AL; Decatur, AL; Gallatin, KY; Conduit Divisions – Louisville, KY; Cedar Springs, GA; Specialty/Automotive –Trinity, AL.

Steel for Nucor Tubular Products is typically obtained from Nucor sheet mills and Nucor plate mills. Contact the Nucor Tubular Product facility directly for specific information.

**Nucor Fastener Products locations:**

Nucor Fastener - St. Joe, IN; Nucor-LMP – Maryville, MO

Steel for Nucor fasteners is typically obtained from Nucor bar mills. Some fasteners may contain high percentages of alloys that may reduce the total recycled content of the products. Contact the facility directly for specific information.

**NUCOR CORPORATION**

1915 Rexford Road  
Charlotte, NC 28211  
704.366.7000

---

**Nucor Cold Finish Group locations:**

Nucor Cold Finish – Norfolk, NE; Darlington, SC; Brigham City, UT; Oak Creek, WI;  
Laurel Steel – Burlington, ON; Nucor Bright Bar – Orrville, OH; St. Louis Cold Drawn –  
St. Louis, MO.

Steel processed at Nucor Cold Finish is typically obtained from Nucor bar mills or Nucor SBQ mills. Contact the Nucor Cold Finish facility directly for specific information.

**Nucor Wire Products locations:**

Nucor Wire Products – Brigham City, UT; Wallingford, CT; Nucor-LMP –  
Maryville, MO.

Steel processed at Nucor Wire Products is typically obtained from Nucor bar mills. Some wire products can contain varying recycled content. Contact the Nucor Wire Products facility directly for specific information.

**Nucor Insulated Panel Locations:**

Insulated Panel Locations – Las Vegas, NV; Lewisville, TX; Sheridan, AR; Laurens, SC;  
Prince George, VA; Shelbyville, IN; Waterloo, IN; Hamilton, ON, Canada

Estimates are based on the recycled content of steel from Nucor sheet mills and North American industry averages. Contact the Nucor Insulated Panel locations directly for specific information, which may vary.

**Skyline Steel Group Locations**

Skyline Steel Locations – Blytheville, AR; Belpre, OH; Camp Hill, PA; Cartersville, GA;  
Iuka, MS; Longview, WA; Newton, IL; Pomona, CA; Berkeley, SC; Kissimmee, FL.

Steel processed at Skyline Steel locations is typically obtained from Nucor beam, plate, sheet, and tubular locations. Contact the Skyline Steel locations directly for specific information.

**NUCOR CORPORATION**

1915 Rexford Road  
Charlotte, NC 28211  
704.366.7000

---

## **Nucor Warehouse Systems Locations**

Warehouse System Locations – Los Angeles, CA; Monroe, GA; Houston, TX.

Steel processed at Nucor Warehouse System locations is typically obtained from Nucor bar, sheet, beam, and tubular locations. Contact the Nucor Warehouse Storage System locations directly for specific information.

## **Nucor Rebar Fabrication locations:**

See <https://nucor.com/products/rebar-fabrication> for location and contact information. Nucor Rebar Fabrication facilities typically source from Nucor bar mills. Contact the Nucor Rebar Fabrication facility for project specific information.

## **LEED Information**

Nucor can provide a variety of documentation to help projects satisfy LEED v4 and v5 credit requirements. Nucor publishes a Corporate Sustainability Report which can be found on our website at <https://www.nucor.com/sustainability/>

We continue to develop product-specific Environmental Product Declarations and Declare Labels for a variety of product groups. Nucor has developed facility and product specific Environmental Product Declarations as well as participated in multiple industry-wide EPDs. Additionally, Nucor will work directly with any customer requiring product life cycle inventory data or other environmental footprint information.

Additional sustainability information, such as Nucor's Corporate Sustainability Report and other certifications, can be found at [Nucor.com](http://Nucor.com).
